

Product Application Training

Written by Administrator

Thursday, 16 August 2012 02:24 - Last Updated Monday, 07 September 2015 09:48

We want to make sure that our products are applied correctly so that our customers can appreciate the total performance of the product purchased from us. The training can add more knowledge to the paint applicators and make them more confident when applying our paints on site with or without the presence of the project owner.
