COLOR DYE CONCENTRATE

DESCRIPTION
A highly concentrated, water-soluble dye concentrate used for coloring and staining. It is suitable for use in a wide range of applications, including industrial and consumer products.

APPLICATIONS
This product is used for coloring and staining various materials, including plastics, metals, and textiles. It is particularly effective for creating vibrant, long-lasting colors.

SAFETY
This product is highly concentrated and should be handled with care. It is not flammable and is not toxic when used as directed. However, it should be kept away from children and pets, and should not be ingested or inhaled.

USE INSTRUCTIONS
1. Mix the concentrate with water in a ratio of 1 part concentrate to 10 parts water.
2. Stir the mixture thoroughly.
3. Apply the mixture to the surface to be colored or stained.
4. Allow the surface to dry completely.
5. The color will be permanent and will not fade.

STORAGE
Store this product in a cool, dry place, away from direct sunlight. The container should be tightly sealed when not in use.
