AC TOPCOAT**

**PRODUCT DESCRIPTION**

This is a two-part acid catalyzed topcoat. It is a clear, colorless liquid that dries to a clear, hard finish. It is used for protecting wood and other surfaces from moisture and wear.

**RECOMMENDATIONS**

1. Apply a thin coat to the surface of the wood.
2. Allow the surface to dry for 24 hours before applying a second coat.

**RECOMMENDATIONS**

Apply a thin coat to the surface of the wood. Allow the surface to dry for 24 hours before applying a second coat.

**RECOMMENDATIONS**

Apply a thin coat to the surface of the wood. Allow the surface to dry for 24 hours before applying a second coat.
